Summary:

Highly motivated and dedicated computer science practitioner with hands-on experience in frontend and backend development, HTML, CSS, JavaScript, Node.js, Angular framework, and limited experience with React framework. Proven ability to manage access control systems and monitor CCTV cameras in a security control room and resolve internet and technical issues of systems in a hospital setting as an IT support intern. Seeking a challenging role in the field of computer science where I can utilize my skills and knowledge to contribute to the growth and success of the organization.

Skills:

- ❖ Strong knowledge of Frontend and Backend Development
- ❖ Proficient in HTML, CSS, JavaScript, and Node.js and PHP
- ❖ Experienced in Angular framework
- ❖ Limited experience with React framework
- ❖ Ability to manage access control systems and monitor CCTV cameras
- ❖ Strong problem-solving skills and technical knowledge

Projects:

Niilano.com (<https://www.niilano.com>) - Online Marketplace (February 2023)

- ✓ Developed a secure, fast, and user-friendly online marketplace that connects buyers and sellers using Ionic Angular, Node.js, Express.js, and PostgreSQL
- ✓ Allows sellers to list and manage items for sale and also buyers to order and communicate with seller
- ✓ Implemented advanced search functionality, secure payment processing, encryption technologies, and user authentication protocols
- ✓ Faced and solved security and reliability challenges
- ✓ Planned to add more features and functionality to Niilano

Voting Application for Dominion University SRC, Accra, Ghana (July 2021)

During my time at Dominion University, I designed, developed, and implemented a voting software application for campus elections. This project involved writing dynamic codes using HTML, CSS, JavaScript, PHP, and MySQL. I also published the source code on my GitHub repository(https://github.com/latif83/duc_elections.git) for reference.

Work Experience:

Web developer Lecturer at Baccolang Institue (May 2022-April 2023):

- ❖ Taught Students on how to develop a website and web applications using html,css,javascript,PHP and MySQL.

National Service Personner Security Control Room at Intelligent Cards Production Systems (September 2021-August 2022):

- ❖ Managed access control systems and monitored CCTV cameras on a day and night basis

- ❖ Displayed strong organizational and time management skills in a fast-paced and high-pressure environment.

Intern System Admin and IT Support at Nsawam Government Hospital
(December 2020–February 2021):

- ❖ Resolved internet and other technical issues of systems in a timely manner
- ❖ Managed HAMS hospital management software, improving the efficiency and performance of hospital systems
- ❖ Demonstrated exceptional customer service skills, providing technical support and guidance to hospital staff.

Education:

Currently pursuing a Degree Top Up in Computer Science at Dominion University College (2023 – current)

HND in Information Technology from Dominion University College (2018–2021)

High School (W.A.S.S.C.E) in Business at St. Martins Senior High School Nsawam, Ghana (June,2018)

Basic Education (B.E.C.E) at Perseverance International School Complex Nsawam, Ghana (June,2015)
